37 CONGRESS STREET.
1865.

REPORT OF THE SELECTMEN.

Admonished by the closing of the municipal year, that our townsmen will expect from this Board the report of their doings for the year past, and feeling that, however unsatisfactory to ourselves or our constituents has been our success in performing the duties of our new offices, we have at least the satisfaction of knowing that we have labored faithfully and honestly to perform the duties which have devolved on us, as Selectmen, Overseers of the Poor, Board of Health, and Surveyors of Highways; and would respectfully report as follows: —

The past year has been one perhaps unprecedented, in the high cost of labor, materials, and provisions; and we have endeavored to be as economical as possible, in our expenditure of the town's money; perhaps in some instances, we may have overstepped the mark of true economy; but if so, our excuse is, that we have had the well known fact so constantly brought home to each of us, that the tax-payers of the town were all feeling the constant call of our beloved

country upon them for contributions, to assist in sustaining the glorious cause in which we are engaged.

We cannot forbear congratulating the town upon the progress made during the past year, by our army and navy, towards the establishment of liberty and union. Traitors now tremble, and true men rejoice. Dorchester has nobly done her duty, in furnishing the aid and assistance required; and most readily has she furnished the sinews of war, by making appropriations of money, with which to assist the willing hearts and hands of those who were ready to enlist in the place of others, whose business, family relations, or other circumstances, required them to remain at home. The quota of the town has been kept full, with an overplus.

A large amount of money is spent annually by the town, in the payment of State Aid, to the families of volunteers; as this money is paid to the families monthly, and refunded by the State only once a year, the town is of necessity obliged to pay a large sum annually, for interest on the money so paid out; but when we consider how much relief is thus afforded and how much the volunteer's home is brightened, the town can well afford the expense. The labor of distributing the State aid is no small tax upon the time of this Board, as aid is now paid to 293 families. The amount paid from February 1, 1864, to March 1, 1865, was $ 19,373. Great care is necessary to guard against illegal payments; the State refunds no money illegally paid, and cases are liable to occur

where the desertion or discharge of a soldier is not reported promptly by the officer whose duty it is to make the return. This Board has no means of obtaining the information, other than through the State authorities; which, when furnished, dates back to the time of desertion or discharge; and the town is liable to lose any money which may have been paid for aid, after the date therein mentioned.

SCHOOLS.

The expenditures on account of schools have largely exceeded the appropriation; but the Board have not felt at liberty to decline the payment of bills approved by the School Committee, especially as all the bills appear to have been necessarily incurred, a large amount of the excess being for heating apparatus, removing steam apparatus and substituting hot-air furnaces, a change, in our opinion, not too soon made. The cost of painting the schoolhouses has been no inconsiderable bill. The price paid for coal has also been higher than was anticipated. The amount of $2,653.83, has been paid on account of Hyde Park School building, for which no appropriation was made by the town. The schoolhouse on Commercial Street was offered at auction, but no satisfactory bid being made it was not sold.

POOR IN ALMSHOUSE.

This Establishment is under the superintendence of Mr. John Keen and his wife, both of whom the Board know to be admirably suited to their situation. Mr. Keen has also been employed as an overseer of the men engaged in the repairs of highways. His experience and ability as Superintendent have been a great assistance to the Board in the performance of their duties.

Mrs. Keen as matron, is peculiarly adapted by temperament and experience to the situation she so acceptably fills; the poor, aged, and unfortunate, find in her a friend and helper, and she is beloved and respected by all the inmates of the establishment.

The Almshouse, Lockup, and some of the out-buildings, were found to be sadly in need of repairs, and have been shingled at a considerable cost. This expense was not anticipated by the Board, but was found unavoidable. The high cost of subsistence the past year is well known to all housekeepers. To the good care which the inmates have received, we feel is attributable, in a great degree, the almost uninterrupted good health enjoyed by them.

A sick female, not having a settlement in the town, was brought here by one of our citizens for a temporary refuge, and before she could be taken to the State Almshouse, she became too sick to be removed there without endangering her life; this was almost the only

case of sickness in the establishment the past year. The number of inmates Feb. 1, 1864, was thirteen. Eleven have been admitted, nine discharged; present number, fifteen. One man is serving out a three months' sentence at the establishment as a vagrant. One hundred and sixty-three transient persons have been furnished with one or more meals and lodgings. In all cases where a person is committed to the Lock-up for safe keeping, a small fee is charged for food and lodging; the filthy, and oftentimes shocking state in which the rooms are left by the occupants, renders this charge necessary. This fee is added to the bill of costs by the officers, when the person is sentenced by the Trial Justice. A fee is also charged persons brought to the Lock-up for lodging when intoxicated, if the person lodged is able to pay for it. The cells of the Lock-up at the Almshouse being unfit aan unsafe for the confinement of unruly criminals, we recommend more secure cells should be made.

Among the payments made on account of the Almshouse, is a bill paid Moses Clark, of Boston, for grain and meal bought in the summer and fall of 1863, amounting to $ 142.52, and other bills, amounting to nearly or quite as large a sum, for articles bought and used that year.

POOR OUT OF THE ALMSHOUSE.

The calls upon our Board for assistance, in furnishing coal and wood, have been very pressing and con-

tinuous. It was intended not to furnish fuel to any who had not a settlement in some town in Massachusetts, but the urgency of the calls for only temporary assistance from some, and their extreme unwillingness to go to the State Almshouse, caused us, in a number of cases, to break over a rule which we found could not be rigidly carried out, with a due regard to humanity. We may, and probably have been, in some instances, imposed upon; in fact, we are sure, that assistance has been persistently asked for, by those who had the means to procure for themselves, would they only draw from their Savings Bank deposits. If the miserable pauper factories, the grog shops, could be closed up, many a poor unfortunate could and would support himself and family comfortably, whose family is now in want.

INSANE IN HOSPITALS.

Six persons, during the past year, have been supported by the town at the different insane hospitals; one has been discharged. The case of Miss M. B. Randall, daughter of Rev. E. Randall, whose settlement in Dorchester we were obliged to acknowledge, was unknown to us when the appropriations were made in April last. The bill for her support, amounting to $179.71, also the increased sum now charged for board in the Hospitals, have caused the expenditure of a larger sum than the appropriation made.

HIGHWAYS.

The duties of Surveyors of Highways, so entirely new to us, we have endeavored to perform to the satisfaction of the travelling public. We have been greatly assisted by Mr. Keen, and Mr. Fobes, whom we employed to superintend the repairs; their experience has been of great value to us. Believing it better for the town to own its own teams, as far as practicable, we bought one yoke of oxen, two horses, and two new carts, which the town now owns, and can sell at an advance on the cost, should it be thought best so to do.

Brush-Hill Avenue has been gravelled almost its entire length, in this town, and is now in excellent order for travel; the streets in the southerly part of the town are mostly in excellent order. Dorchester Avenue, from Boston line to Field's Corner, needs much more attention. In consequence of the alteration a few years ago, in the grade of this street, between Crescent Avenue and Savin Hill Avenue, by which alteration almost all the material which had been for years past spread upon the street, was removed, there is not now sufficient hard material, over the loamy and sandy sub-soil, to support the heavy teaming, constantly passing over that street; and further, the location of the horse railway in the centre of the street, with the block stones by the outside of the rails, so constantly out of repair, have made that Avenue a

source of great annoyance to us, and the travelling public. The Board are of the opinion, that the public good requires that the horse railway track upon that Avenue should be removed from the centre to the east side of the Avenue, so that the travelling road can be properly graded. Sidewalks are very much needed in many parts of the town. In that part of Dorchester Avenue between Adams Street and Park Street, a culvert has been laid, with the expectation that it will drain the water from the street, so as to make it more passable in the Spring of the year, and also to enable those living in the houses abutting, to drain their cellars, a late widening of the Avenue, we are informed, having seriously injured their former drainage. The total cost of constructing the culvert was $ 274.84, and the abutting property owners agree to pay one half its cost.

The Board has bought of Mr. Charles Breck a lot of gravel land, adjoining a lot owned by the town on Commercial Street, at a cost of $1,516.50; this we consider a very advantageous purchase for the town; the want of good gravel for roads will be constantly and increasingly felt. The street from Mill Street to Commercial Point, called the "Preston Road," has been put in good passable order, and should be finished the coming Spring.

Piles have been driven by the side of the street over the marsh from Port Norfolk to Commercial Street, upon which planking is to be nailed, and the street

raised to a height above high-water mark, and made safe and comfortable for travel. The public travel is very seriously incommoded by the crossings of the Boston, Hartford, and Erie Railroad. On River Street, the County Commissioners ordered a bridge to be built so as to carry the travel on the highway over the railroad. This bridge and crossing, when the Railroad Company shall have properly fenced the sides of the embankments, will be quite safe and satisfactory. The bridges built by the Railroad Company on Harvard and Norfolk streets, have been done without consulting the Town, and without the direction of the County Commissioners, as to the manner of their construction; they are too narrow, being only about 20½ feet wide; and we consider them unfit and dangerous. The earth embankments are also improperly constructed, and we have notified the Company that we so consider them, and shall hold the Company responsible for all damage. The crossings at Washington, Green, Columbia, and Cottage streets, we are assured will soon be constructed in a satisfactory manner. The crossing at Stoughton Street has been made a grade crossing, by raising the highway. This has not been done to our satisfaction, the Company having narrowed the street, and made the ascent too steep. We believe the County Commissioners will cause the Railroad Company to make a good and easy grade of ascent, and to restore the street to its original width; also to protect the public travel by establishing gates and a flag-man.

We have hesitated to push this Company to do all that was considered necessary to be done, knowing that they labored under peculiar disadvantages; and we have been assured that the public safety shall be attended to, and the wishes of the town fully met, as soon as possible. The road, when completed and in use, we believe, will be of very great advantage, and therefore we have felt, that although the town does now suffer in consequence of the unfinished state of the bridges and crossings, it can afford to wait until the coming summer for their completion.

The Board have, by an order, established a code of Rules and Regulations relative to the use and management of the street railways in the town, which, if complied with, we believe, will be beneficial to both the Railroad Company and the public.

FIRE DEPARTMENT.

By reference to the Report of the Chief Engineer of the Fire Department, it will be found, that although not so large and expensive as Departments of this kind are in most large towns, still, it is efficient and serviceable.

NOTES AND INTEREST.

We have thought it best to report in full, all payments which have been made on account of temporary or permanent loans, and have done so.

ABATEMENT OF TAXES.

In consequence of an alteration in the statute law, causing the taxes on stock in Banks and other corporations to be paid to the State, instead of the towns, a larger number and amount of abatements were made than was anticipated by the assessors.

LICENSE OF DOGS.

The money from this source which has until this year been paid into the Town Treasury, is now paid to the County Treasurer.

PERAMBULATION OF TOWN LINES.

During the past year, the boundary lines between this town and the towns and cities adjoining, have been perambulated, and the bound marks examined, and renewed; record of the same has been made according to law.

ADDITION TO TOWN HALL.

Feeling the immediate necessity of additional accommodations for voters at town meetings, and believing the town not yet ready to build a new Town Hall, the Board have caused an addition to the southerly side of the Town Hall to be made; we think the additional room and accommodations obtained will fully compensate for the expense incurred.

TOWN OFFICERS' ROOMS.

The room at the Almshouse, heretofore used by the Selectmen and School Committee for their office, has, for years, been found inconveniently small: the School Committee having been often obliged to use two or three rooms, to the inconvenience of the Committee, as well as the occupants of the almshouse. At the suggestion of a number of our citizens, the Board rented rooms in the new building owned by J. H. Robinson, Esq., at Field's Corner. The location being quite central, and accessible from all parts of the town, we believe the convenience of our citizens, and others having business at the office, as well as the comfort of the Town officers, will amply repay the expense.

POLICE AND WATCH.

The depredations committed in many gardens and orchards by boys and others from the neighboring cities, as well as the robbery of many unoccupied dwellings, have made it necessary to employ a larger number of police and watchmen than usual, and the expenditure in this Department has largely exceeded the appropriation.

The accumulation of books in the Assessors' Office, the loss of which would be irreparable, requires that the Assessors should be provided with a larger fire-proof safe the coming season.

A great amount of time and labor have been spent in correcting the enrolment list of the town, and it

is believed that the quotas of the town, under future calls for troops, will be reduced to a more equitable number than before, when compared with the quotas of other towns.

Under the head of Incidental Expenses, is included the amount paid for gravel land bought of C. Breck, and referred to under the head of Highways.

The Board would suggest to the town, the necessity of having some Town Officer at the Selectmen's and Assessors' Rooms, during a certain part of every working day. The business of this town (the largest in the Commonwealth) is great, and constantly increasing, and the inconvenience often experienced by those having business with the town, in finding its officers, is very annoying.

If the office of Town Clerk and Town Treasurer could be filled by the same person, and he could be found at the Selectmen's Room every forenoon, the necessity would be met, and the annoyance, in a great measure, removed.

Guideposts, with guideboards upon them, for the direction of travellers, are erected in all the streets and ways within the town, where, in our opinion, it is necessary they should be maintained.

JAMES H. UPHAM,
WILLIAM POPE,
WM. HENRY SWAN,
Selectmen of Dorchester.

DORCHESTER, February 1, 1865.

RECEIPTS AND EXPENDITURES.

SCHOOLS.

HIGH SCHOOL — GIBSON STREET.

Paid Jonathan Kimball, for teaching	$ 1,625	00

REPORT OF THE FIRE DEPARTMENT.

TO THE SELECTMEN OF DORCHESTER: —

GENTLEMEN: In accordance with the custom of past years, I herewith present the Sixteenth Annual Report of the condition of the Fire Department of Dorchester; and in so doing, would renewedly congratulate your Board and the town, that we have been spared the calamity of frequent fires the past year, the Department having been called out to extinguish but seven fires in this town.

There are now four organized companies in the Department, composed of persons who really have the interest of the town, and the protection of the property of our citizens, at heart.

The Engines and Hook and Ladder Carriage are in good and serviceable condition. In consequence of the organization of two new companies, the expenditures have exceeded the appropriation made by the town. Engine house No. 2 has been painted, and engines Nos. 2 and 6 have been repaired.

The amount of expenditures under the direction of the Board of Engineers the past year has been $ 1,208.57. Total amount of expenditures on account of Fire Department, $ 1,958.07.

The Department is organized as follows, viz: —

SYLVESTER H. HEBARD, *Chief Engineer.*

Assistant Engineers.

GEORGE C. DENNISON, HENRY FOBES,
NATHANIEL WITHINGTON, JAMES T. OLIVER,
JOHN E. JONES.

Engine No. 1, Fountain, is in charge of six persons. Charles F. Hall, steward.

Engine No. 2, Protector, is in charge of a company of volunteers. Franklin Holden, foreman. Nathaniel H. Bird, steward.

Engine No. 3, Torrent, is in charge of six persons. John Foster Hewins, steward.

Engine No. 4, Alert, is in charge of a company of volunteers. John H. Burt, foreman. Robert Tilden, steward.

Engine No. 5, Independence, is in charge of a company of volunteers. John H. Maldt, foreman. George O'Baird, steward.

Engine No. 6, Tiger, is in charge of a company of volunteers. Theodore Hersey, foreman. Oliver Davenport, Jr., steward.

Mattapan Hook and Ladder carriage is under the charge of two persons. Samuel Bridget, being steward.

A table of fires and alarms from February 1, 1864, to February 1, 1865, is annexed.

Respectfully submitted,

SYLVESTER H. HEBARD, *Chief Engineer.*

DORCHESTER, February 1, 1865.
